John Kieling, Bureau Chief
 Hazardous Waste Bureau
 New Mexico Environment Department
 2905 Rodeo Park Drive East, Building 1
 Santa Fe, NM 87505-6303

**Subject: 15-Day Sampling Notification for Solid Waste Management Unit 02-014 at
 Technical Area 02**

Dear Mr. Kieling:

Newport News Nuclear BWXT – Los Alamos, LLC (N3B) is scheduled to begin soil sampling and remediation at Solid Waste Management Unit (SWMU) 02-014 in Technical Area 02 (TA-02) on September 27, 2018. SWMU 02-014 consists of three former electrical transformer stations that served buildings in TA-02. Additional extent sampling and remediation will be conducted to address polychlorinated biphenyl contamination in soil at this site.

Remediation is expected to conclude on or around October 26, 2018. The investigation report that summarizes the sampling and remediation results and presents human health and ecological risk assessments for SWMU 02-014 is scheduled to be submitted to the New Mexico Environment Department by March 29, 2019.

If you have any questions, please contact Brenda Bowlby at (360) 930-4353 (brenda.bowlby@em-la.doe.gov).

Sincerely,

 Joseph A. Legare
 Program Manager
