**RE: APPROVAL
CLASS 1 PERMIT MODIFICATION NOTIFICATION FOR ADDING A SUPPORT STRUCTURE
TO PAD 11, AT TECHNICAL AREA 54, AREA G,
HAZARDOUS WASTE FACILITY PERMIT
LOS ALAMOS NATIONAL LABORATORY
EPA ID #NM0890010515
HWB-LANL-19-028**

Dear Messrs. Hintze and Lockhart:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE) and Newport News Nuclear BWXT-Los Alamos, LLC, (N3B), collectively referred to as the Permittees, *Revision of Class 1 Permit Modification Notification for Adding a Support Structure to Pad 11 for the Los Alamos National Laboratory Hazardous Waste Facility Permit* (Notification) dated and received August 6, 2019, referenced by N3B-19-0213.

On June 5, 2019, the Permittees submitted *Class 1 Permit Modification Notification for Adding a Support Structure to Pad 11 for the Los Alamos National Laboratory Hazardous Waste Facility Permit* (N3B-19-0154). On July 2, 2019, NMED discussed with the Permittees the inaccuracies observed in the Figures, and the Permittees have submitted this revision with the inaccuracies

addressed.

The Permittees have submitted this Notification as an administrative and informational change to modify the descriptions (Attachments A, and G.12) and figures (Attachments G.12 and N) to include a personnel support structure (office trailer) at Technical Area 54, Pad 11. This support structure will not be used for the management of hazardous waste, and has been incorporated in the Permit in accordance with the 40 Code of Federal Regulations (CFR) 270.42 Appendix I, item A.1.

An electronic version of the Permit that incorporates the modifications is enclosed with this letter. The modified Permit is also available on the NMED's Hazardous Waste Bureau website at: <https://www.env.nm.gov/hazardous-waste/lanl-permit/>

If you have any questions regarding this letter, please contact Siona Briley at (505) 476-6049.

Sincerely,

John E. Kieling
Chief
Hazardous Waste Bureau
