NMED staff,  
The DOE/N3B Los Alamos team finished construction of well R-70 today at 4 pm. We will submit the R-70 Fact Sheets on or before 6/16/19 (30d) and the Well Completion Report on or before 10/14/19 (150d). Well development will begin tomorrow with aquifer testing likely starting late in the week. Please let me know if you have comments or questions.

Regards,  
Mark Everett, PG  
Drilling/Well Maintenance Program Manager  
N3B-Los Alamos Water Program
