NMED staff,

The DOE/N3B Los Alamos team finished construction of well R-69 yesterday, late in the day. We will submit the R-69 Fact Sheets on or before 11/23/18 (30d) and the Well Completion Report on or before 3/23/19 (150d). Swabbing and bailing will commence tomorrow with development pumping beginning Sunday or Monday. I will coordinate a site visit with interested NMED staff for Monday or Tuesday next week.

Regards,

Mark Everett, PG
Drilling/Well Maintenance Program Manager
N3B-Los Alamos Water Program
