**RE: DEMOLITION NOTIFICATION FOR QUARTER ENDING SEPTEMBER 30, 2021,  
HAZARDOUS WASTE FACILITY PERMIT, LOS ALAMOS NATIONAL LABORATORY  
EPA ID #NM0890010515  
HWB-LANL-MISC**

Dear Karen Armijo and Lee Bishop:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE), the National Nuclear Security Administration Los Alamos Field Office (NA-LA) and the DOE - Environmental Management Los Alamos Field Office (EM-LA), along with Triad National Security, LLC (Triad), and Newport News Nuclear BWXT-Los Alamos, LLC (N3B) (collectively, the Permittees) *Demolition Notification for Quarter Ending September 30, 2021, Hazardous Waste Facility Permit, Los Alamos National Laboratory*, dated and received June 30, 2021, and referenced by EPC-DO-21-161/LA-UR-21-25098.

As stated by the Permittees, investigations are not complete at several Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) located within 50 feet of the buildings proposed for demolition. The Permittees state that they will ensure that the sampling locations and depths proposed in the approved work plans are not affected by these activities. In the case of adverse impacts to the SWMUs/AOCs where investigations are not complete, the Permittees must document all demolition activities that affect any SWMU or AOC in detail so that any impacts on work proposed at the SWMUs/AOCs can be identified and evaluated.

On July 29, 2021, NMED requested a replacement table for Enclosure 1 from the Permittees. The request was to ask for an updated table that includes SWMU 41-002(c) for building 41-

0007, which was not identified in the 50 ft. footprint column for Building 41-0007. NMED received the updated table on July 30, 2021.

The Permittees must provide a copy of demolition reports, if prepared, to NMED within 30 days after the reports are complete in accordance with Permit Section 1.17.3.

Please contact Mitchell Schatz of my staff at (505) 690-5910, should you have any questions.

Sincerely,
