Rick Shean
 Bureau Chief
 Hazardous Waste Bureau
 New Mexico Environment Department
 2905 Rodeo Park Drive East, Building 1
 Santa Fe, NM 87505-6313

Subject: Submittal of the ECORISK Database, Release 4.3

Dear Mr. Shean:

Enclosed are two copies of a CD containing updates to the ECORISK Database. Newport News Nuclear BWXT-Los Alamos, LLC (N3B) maintains and updates the database to ensure that the ecological screening levels (ESLs) used to assess potential ecological risk at Los Alamos National Laboratory (LANL) sites are representative and current. All revision 0 reports submitted to the New Mexico Environment Department Hazardous Waste Bureau will use the ESLs presented in this release starting in October 2022.

Please be aware, you must copy the database and associated files from the CD to a computer to open it and all files must be in the same directory for the links between documents to work.

You may also download the update from the Intellus New Mexico website at <https://www.intellusnm.com>. To download the database and user guides, go to the Documents section in the Intellus header bar, navigate to LANL Files >> Ecorisk Database, and download both zip files in that directory.

If you have any questions or issues related to the database or download, please contact Patricia Wald-Hopkins at (505) 709-7796 (patricia.wald-hopkins@em-la.doe.gov) or Arturo Duran at (505) 257-7907 (arturo.duran@em.doe.gov).

Sincerely,

Troy Thomson
Program Manager
Environmental Remediation Program
N3B-Los Alamos

Sincerely,

M Lee Bishop
