Subject: Request for Extension on 2022 NOV Response and Penalty Calculation Worksheet

Follow Up Flag: Follow up
Flag Status: Completed

Categories: Letters, CCATS

Aaron – As discussed yesterday, EM-LA and N3B are in receipt of the Notice of Violation with Proposed Penalties dated February 13, 2024 (NOV). However, as N3B was not included on the distribution of this document, and a coordinated response is required, we request a 14-day extension in responding to the requests made in the NOV. If agreeable, the requested response will be provided to NMED by 03/28/2024.

We also request that NMED provide the penalty calculation worksheet associated with each of the specific NOV's cited in the NOV.

Thank You

Christian Maupin
