

Monitoring Storm Water Runoff from Los Alamos National Laboratory under the Individual Permit

Hybrid Public Meeting

Cities of Gold Hotel, Tribal Room, Santa Fe (Pojoaque), NM
& Virtual via MS Teams

Wednesday, March 4, 2026

2:00 - 3:30 p.m. MST

The “Los Alamos National Laboratory (LANL) National Pollutant Discharge Elimination System Storm Water Individual Permit (NM0030759)” regulates the monitoring of storm water runoff from sites associated with LANL legacy operations. (Link to permit issued by EPA: <https://www.epa.gov/nm/lanl-storm-water-individual-permit-npdes-permit-no-nm0030759>)

N3B staff will provide a review of the 2025 storm water monitoring season and an update on Individual Permit Corrective Actions.
